

SELECTED PROJECTS

Vybe Urgent Care – Various Locations Philadelphia, PA

Fitout of several urgent care facilities in the Philadelphia area. Locations include ground floor retail space as well as in-hospital medical office space.

Trinity Health Mid-Atlantic – Various Locations

Design and documentation of several suburban outpatient facilities for a major healthcare network.

Norris Square Community Alliance Philadelphia, PA

Adaptive reuse of a parochial school as a vibrant neighborhood community and service center in an underserved section of North Philadelphia.

Delaware Valley Community Health Philadelphia, PA

Design and documentation two facilities: one space is a renovation of existing administrative space; the other is a fitout of shell space in a new building located across the street. Both designs respond to a post-pandemic working environment.

RACHEL KARAMIAN Staff Architect

EDUCATION

Drexel University
Philadelphia, PA
Bachelor of Architecture, June 2022

Cooper Union for Advancement of
Sciences and Art
Certificate, 2015

Before joining Brawer Hauptman + Larkin in 2018, Rachel was a student at Drexel University participating in the 2+4 Architecture program. After completing her first two years, she became a part-time Drexel student and full-time employee at BH+L while working towards her Bachelor of Architecture degree and a minor in Construction Management, which were completed in 2022.

Rachel has since gained experience working on a variety of projects in differing industries including healthcare, retail, and higher education. She often works closely with clients to develop relationships that ensure all expectations are met and exceeded throughout the entirety of the project.

Outside the office, Rachel enjoys traveling. She often travels domestically, as well as abroad to visit some of the most captivating architectural wonders of the world.
