Temple University
Philadelphia, PA
*Bachelor of Science in Architecture,
2013*

Since joining Brawer Hauptman + Larkin in 2017, Jose has been exposed to a multitude of disciplines within the healthcare space, allowing for a creative and critical view on the needs and desires of the clients.

Jose has worked through all stages of the design process from early concept through construction completion. He understands the importance of the iterative process required to achieve client expectations, while also aiming to exceed them.

Jose has worked for a variety of clients including Einstein Healthcare Network, Main Line Health, Trinity Health, Grand View Health, Delaware Valley Community Health, among others.

Jose was born and raised in Venezuela to American and Spanish parents. He currently resides in Chestnut Hill and is working towards his Architectural License.
